To the CEO,

Ahmad Hammouda,

Thndr,

Cairo, Egypt

Dear sir,

RE: APPLICATION FOR SOFTWARE DEVELOPMENT INTERNSHIP

My name is Intwaza Belyse, a software developer from Rwanda. I am writing to apply for a software development internship at Thndr.

Thndr's mission of making investment easy and accessible to everyone inspires me. Coming from a developing country that is still facing numerous systemic challenges, such as youth unemployment, I have always been fascinated by the use of technology in solving pressing problems. I am currently working on the "Kazi ni Kazi" app, a mobile app that aims to help job seekers connect with recruiters.

My belief is that with my skills and background, I would be able to contribute to Thndr's inevitable growth. My email and phone number respectively iintwazabelyse@gmail.com +250781877792. Looking forward to getting an opportunity to discuss further.

Sincerely,

Intwaza Belyse.
